Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3-14, 16, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by United States Patent 5,951,525 Thorne et al.

Thorne discloses the same invention comprising a stem portion (30) having a recess (32) (shown best in figure 2) along its length being shaped to receive a surgical needle (6:36-52), having a c-shaped cross-section at its distal end (32) and first and second extension portions comprising stationary portions (the left and right portions of (80)) coupled to the stem, movable portions (100) and (110) bendably/pivotably coupled to the stationary portions, and gripping elements (121) and (141).

In regards to claims 7 and 8, Thorne discloses extension portions that extend from the stem portion at angles ranging from 45-180 degrees. The range of angles the extension portions extend from the stem is shown best in figures 1, 3, and 4.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3738

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2 and 15 rejected under 35 U.S.C. 103(a) as being unpatentable over United States Patent 5,951,525 Thorne et al.

Thorne discloses the invention substantially as claimed being a guide for use in medical procedures as disclosed above. However Thorne fails to disclose the exact distance between the extension portions and the stem. It would have been an obvious matter of design choice to make the distance in the first position range from 55-65 mm and the distance in the second position range from 65-75 mm in order to accommodate larger or obese patients. Such a change involving a mere change in size is recognized as being within the level of ordinary skill in the art.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3738

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
